Care Instructions

Cuddle Blanket

Koni Cuddle Blankets are soft and luxurious providing, durability and guest satisfaction. These products will maintain their original beauty for a long period of time if cared for properly. Please follow these instructions carefully.

Washing and Drying

Do's

- ◆ Wash and dry in warm temperature, not exceeding 120°F (49°C)
- ◆ Wash with mild surfactant detergent.
- ◆ Use gentle cycle in washing and drying
- ◆ Wash and dry separately from other textile
- ◆ Check for burrs inside the washing machine and dryer periodically and smooth out the roughness inside the machines before putting in any Heavenly products
- ◆ Remove the items from the washer and dryer as soon as the cycle is over
- ◆ Test ONE set in a washer and dryer for a satisfactory result. Proceed with others when the test result is satisfactory. (Koni will be responsible for one test set only, if an unsatisfactory result occurs)

Don'ts

- ◆ **DO NOT** use HOT water exceeding 120°F (49°C)
- ◆ **DO NOT** use HOT dryer temperatures exceeding 120°F (49°C)
- ◆ **DO NOT** use Alkaline detergent
- ◆ **DO NOT** use chlorine bleach
- ◆ **DO NOT** use fabric softener in either the washing or drying cycles
- ◆ **DO NOT** mix with any other textile
- ◆ **DO NOT** use washing machines or dryer with burrs inside

Koni PreClean Spot Remover

Apply Koni PreClean Spot Remover to the spot and gently rub it into the fabric. Allow it to stand for 10 minutes. Hand wash the spot in lukewarm water, then follow the washing and drying instructions. Most of the stains will be removed with this application, but if you run into a stubborn stain, brush lightly after applying PreClean and repeat the process.
